TUNS of WIRE WANTED.—

Propesals are invited by the understaned, on the NIAGARA FALLS INTERNATIONAL BRIDGE COMPANIES, for the construction of the wire cables of the Railroad Suspension Bridge, of 800 feet span, to be erected over the Niagara River, below the Falls, for the desirery of ONE MILLION OF POUNDS OF IRON WIRE, or any portion of it, at less than 100,000 lbs, at the site of the bridge, on the following conditions:

1. The wire is to be of No. 10 size, so that 20 feet will weigh exactly one pound.

2. The skeins to weigh no less than 18 lbs. An offer for 30 to 40 lbs will be greatly preferred.

3. The wire must be finished with a lime coat, smooth and even, both ands of the same thickness.

4. It must be finished in three holes, or nearly as hard as pring wire.

5. The from must have been manufactured of the best quali-

4. It must be intended to three decays of the best qualigrif swire.
5. The from must have been manufactured of the best quality of charcoal blooms, which will make hard wire of great
elasticity, strength, fibre and toughness.
6. The blooms must have been manufactured of cold-blast pig.
Aharcoal pig, and not of anthracite pig, nor of hot-blast pig.
7. Sathfactory evidence will be required beforehand of
the quality of the iron, of which the wire is to be drawn.
8. The wire must be drawn on blocks of no less than two
feet in diameter.

feet in diameter.

9. It must be put up in bundles of 200 lbs., as near as can be done, without small skeins

10. The wire is to be delivered in five equal portions during the months of May, June, July, August, and September

ing the months of May, June, July, August, and September of next year.

11. On delivery the wire will be examined and tosted in the following manner: Of every 5 bundles, or 1,000 ibs, one skeln, will be serieted, and suspended between two posts 400 feet apart, the one end attached to a capstan, by which it will be gradually bauled on until it breaks. The condition now is, that this wire must not break with a greater deflection than 9 inches, which is equivalent to 1,300 ibs., or 30,000 per superficial inch of solid wire section. If it stands this lest, then further examination of that 1,000 ibs., in support to other qualities, will be continued, but if not, it will be rejected and placed at the disposal of the contractor.

12. As regards toughness and fibre, each end of a skein will be tested by bending its suare over the laws of a large pair of new and sharp oliers, and bending it back again. The wire must stand this test without the least sign of failure. Its harders and elasticity will at the same time be examined by bending and swinging, also by hammering, filing and notabing the ends, which forms part of the operation of spilcing.

Such lots as have stood the various tests satisfactorily, then be accepted conditionally, and 80 per cent. of its value will then be paid to the contractor in bankable

Mill value will then be paid to the contractor in bankable fands.

14. The 20 per cent, will be reserved for four months longer. Should in that time, during the construction of the subjex, any more defective skeins be discovered, such skeins will be rejected and placed at the contractor's disposal, either broken or whole, olide or not oiled, in such condition as they happen to be during the progress of the work. The value of such wire, together with the labor expended upon it, will then be dediced of the 20 per cont. coorded upon it, will then be dediced of the 20 per cont. coorded upon it, will then be dediced of the 20 per cont. coorded upon it, will then be dediced of the 20 per cont. coorded upon it, will be undersigned, as the Engineer of the Bridge, will be the sole judge of the above tests; he will stand as an impartial umptre between the contractor and the Bridge Companies at 6 from his decision there shall be no appeal.

16. Proposals for imported wire will also beaccepted. One-half or 50,000 lbs will be used on the Canada side, and may be bonded, if it sported by way of New-York.

17. Preposals for limported to the undersigned, at Classian Fridge. Wire.

18 Those contractors, whose proposals are accepted, will be informed of the Sact by mall before or on the 10th of October next; they are to be directed to the undersigned, at Classian Ericka Wire.

The RAILROAD BONDS are secured in the most ample manner by Mostgage or Deed of Trust, to some known and responsible citizen of New-York, with power, in case of default to enter and seil each line, with all equipments, &c, to raise money to pay amount of inferest or principal.

The CITY and COUNTY BONDS are issued, in each case, by virtue of Special Acts of the proper Legislature, granting full power for that purpose, and on a direct vote of the people interested, that vote being largely in favor of their issue.

It become necessary.

These debts operate in the nature of a mortgage, on the resi and personal estates within the respective City and County limits.

The new Constitutions adopted by the people of Ohio and Indians, prohibit absolutely the creation of any funced debt by Counties, within their boundaries. This will prevent a further issue of securities of this sort.

Printed exhibits, in each case can be had on application at our office, giving full and detailed information as to the nature of each security.

CREAT CURE for DYSPEPSIA!—Dr. Grattre Juice prepared from Rennet, or the Stonach of the Or, after directions from Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelpus, Pa. This is a Great Natural Remedy for Indisgetion and Dyspepsia, curing after Natural Remedy for Indisgetion and English principle of the Grastric Juice—the Solvent of the Foot, the purifying, preserving and stimulating agent of the stomach and Intestines. It is extracted from the digestive stomach of the ox, thus forming an artificial Digestive Fluid, precisely like the natural sastric juice, in its chamical powers, and furnishing a complete and perfect meetitute for it. By the aid of this preparation, the pains and evils of indigestion and dyspepsia are removed, just as they would be by a benikly stomach. It is doing wonders for dyspeptics, curing cases of Denility, Ernacistion, Nervous Decline, and Obspeptic Consumption, supposed to be on the verse of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable. Wholesale and retail Agents, J. BALL& CO., No. 100 Nassarak.

"Dr Hoofhard's celebrated German Bitters, for the sure of Liver Complaint, Jamoice, Dyspeosia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has binnelf received an effectual and per manent cure of Liver Complaint from the use of this Bitters the patient constantly gains stronger and vigor, a fact worthy of great consideration. They are pleasant in taste as d smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

MORE EVIDENCE.

Hon C. D. Hineline, Mayor of the City of Camden, N. J. 4839:

"Hooyland's German Bitters — We have seen many flattering notices of this medicine, and the source from which they came induced us to make in juity respecting its merits from inquity we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and directive organ, and the powerful inducence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

"If this medicine was more generally used, we are satisfied there wante be less sickness, as from the stomach, lives and nervous system, the great majority of real and imaginary diseases emanete. Have them in a healthy condition, and you can bid diffunce to epidemics generally. This cast traordisary medicine we would advise our friends who are at all indisposed to give a trial—it will recommend itself it aboutd, in fact, be in every family.
